~~~~~

Good day.

If u were more attentive while playing with yourself, I wouldn't worry you. I don't think that playing with yourself is really awful, but when all colleagues, relatives and friends receive video record of it- it is definitely for u.

I seized virus on a web-site for adults (with porn) which was visited by you. When the victim tap on a play button, device starts recording the screen and all cameras on your device begins working.

Moreover, soft makes a dedicated desktop supplied with keylogger function from your system , so I was able to collect all contacts from ur e-mail, messengers and other social networks. I'm writing on this e-mail cuz It's your working address, so u must check it.

In my opinion 380 usd is pretty enough for this little misstep. I made a split screen vid(records from screen (u have interesting tastes ) and camera ooooooh... its awful AF)

So its ur choice, if u want me to delete ur disgrace use my bitcoin wallet address:

1BTRzrGvcZ88GpjQLyo2TJRCnh4XBArzWY

You have one day after opening my message, I put the special tracking pixel in it, so when you will open it I will know.If ya want me to show u the proofs, reply on this letter and I will send my creation to five contacts that I've got from ur device.

P.S... U are able to complain to police, but I don't think that they can solve ur problem, the inquisition will last for several months- I'm from Estonia - so I dgf LOL

## Spletna družabna omrežja - 10 naj nasvetov

1. Že na začetku, ko se pridružuješ novemu socialnemu omrežju, **vpiši čim manj osebnih podatkov.** **Raje ne sinhroniziraj** profila in podatkov z drugimi omrežji, e-mail računom, kontakti v mobilnem telefonu ipd.
2. **Upoštevaj starostno omejitev**, ki jo imajo družbena omrežja (pogosto je 13 let, za nekatera pa tudi 18).
3. Nastavite zasebnosti svojega profila v družabnih omrežjih nastavi tako, da **lahko tvoje objave in profil vidijo le prijatelji** in ne splošna javnost. Družabna omrežja zelo postop spreminja te nastavite, zato **vsake toliko preveri, če je še vedno vse OK.**
4. Za prijatelje v družabnih omrežjih **sprejemaj le ljudi, ki jih tudi v živo poznaš**, in ne potrjuj neznancev, samo zato, da **boš imel čim več prijateljev.**
5. **Nauči se prijaviti** zlorabo, **nadlegovanje**, sovražno skupino, sliko, posnetek in **blokirati osebo** v družabnem omrežju, ki ga uporabljaš. Nauči se tudi **izbrisati svoj profil.**
6. **Spoštuj zasebnost drugih** in ne objavljal njihovih slik, če ti tega niso dovolili. Prav tako **preverjaj in spremljaj, kaj so drugi objavili o tebi.**
7. **Nikomur ne zaupaj svojega gesla** za omrežja, lahko ti **ukrade identitet** in povzroči velike težave.
8. **Previdno z uporabo lokacijskih storitev** v družabnih omrežjih.
9. Prek družabnih omrežij se širijo tudi spam, virusi in golufije. **Ne odpiraj sporočil od neznancev in nenavadnih sporočil tvojih prijateljev** (kjer te prosijo za denarno pomoč ali ti pošiljajo "smešne" ali podobno "zanimive" videe).
10. Zavedaj se, da **kar objaviš na družabnem omrežju na nek način predas v last omrežja**, saj lahko uporabijo podatke in slike, predvsem za oglaševalske namene. **Preberi pogoje uporabe omrežja**, ki ga uporabljaš in ugotovi, kaj lahko storijo s tvojimi podatki ...

# Medijska pismenost

Pa kdo sploh še rabi knjige,  
saj je itak vse na netu...

# Is This a Photograph of a Dead Fairy?

Most of the April Fool's pranks that appear on the Internet on or around April 1 have petered out by a day or two later; some of the more subtle satirical articles may continue to circulate for a few days longer before some readers recognize them as humor rather than genuine news stories. For whatever reason, though, a "mummified fairy" prank of 2007 was still going strong well after April 1 had come and gone, even though its creator had long since admitted to the hoax and the fictional tale had been exposed by

# Slikovno iskanje (Obratno iskanje slik)

## Trije načini za slikovno iskanje

### Povlecite in spustite

Povlecite in spustite sliko iz spletja ali vašega računalnika v iskalno polje na [images.google.com](http://images.google.com).

### Prenesite sliko

Pojdite na [images.google.com](http://images.google.com), kliknite ikono fotoaparata in izberite »Prenesite sliko«. Izberite sliko, ki jo želite uporabiti, in zaženite iskanje.

### Kopirajte in prilepite URL slike

Ste v spletu našli sliko, ki vas zanima? Kliknite jo z desno tipko miške in kopirajte njen URL. Pojdite na [images.google.com](http://images.google.com), kliknite ikono fotoaparata in izberite »Prilepite URL slike«.

Za še hitrejše iskanje [prenesite razširitev za Chrome](#) ali [razširitev za Firefox](#). Ko razširitev namestite, sliko v spletu kliknete z desno tipko in Google začne iskati.

# Evropska komisarka za pravosodje od Facebooka zahteva pojasnila

Evropska komisarka za pravosodje Vera Jourova od Facebooka zahteva, da pojasni, v kolikšni meri je afera o zlorabi podatkov uporabnikov facebooka prizadela Europejce. Komisarka naj bi v ponedeljek operativni direktorici Facebooka Sheryl Sandberg poslala pisno zahtevo, današnje poročanje nemškega Bild am Sonntag povzema nemška tiskovna agencija dpa.

(Foto: AP)

»Od Facebooka zahtevam nadaljnja pojasnila, v kolikšni meri so bili prizadeti evropski uporabniki. Zlorabe podatkov 50 milijonov uporabnikov facebooka so v celoti nesprejemljive,« je za časnik še dejala evropska komisarka, ki se je nedavno vrnila z obiska ZDA. V zvezi s tem je dejala, da so jih pristojni organi v ZDA zagotovili, da očitke jemljejo zelo resno ter da že pripravljajo ustreerne ukrepe.

»Ta afera bi morala biti opozorilo za vse nas: Kdor ima opravka z našimi osebnimi podatki, ima lahko velik vpliv. To zadeva nazadnje tudi temelje naše demokracije,« je še posvarila Jourova.

## Manipuliranje javnega mnenja

V središču afere je podjetje Cambridge Analytica. Afera je izbruhnila, ko je žvižgač, ki je sodeloval pri ustanovitvi podjetja, za časnik *The Guardian* povedal, da so informacije okoli 50 milijonov

# StartPage protects your privacy!

StartPage, and its sister search engine Ixquick, are the *only* third-party certified search engines in the world that *do not* record your IP address or track your searches.

## Your privacy is under attack!

Every time you use a regular search engine, your search data is recorded. Major search engines capture your IP address and use tracking cookies to make a record of your search terms, the time of your visit, and the links you choose - then they store that information in a giant database.

Those searches reveal a shocking amount of personal information about you, such as your interests, family circumstances, political leanings, medical conditions, and more. This information is modern-day gold for marketers, government officials, black-hat hackers and criminals - all of whom would love to get their hands on your private search data.

## Why should you worry?

Main search engines have privately accessed the largest database of personal information on the Internet.

## Viral 'Momo challenge' is a malicious hoax, say charities

Groups say no evidence yet of self-harm from craze, but resulting hysteria poses a risk

son Media editor

9 06.00 GMT

65.428

▲ The Momo messages are said to come from a profile with this distorted image of a woman, but experts say the story is no more than a 'moral panic' among adults. Photograph: PSNI

It is the most talked about viral scare story of the year so far, blamed for child suicides and violent attacks - but experts and charities have warned that the "Momo challenge" is nothing but a "moral panic" spread by adults.
